

GRC coffin was developed based on a vision to create the possibility to be where it needs to be when it is needed and most of all create a sense of personal tribute.

The concept is a *Do it yourself product*, easy to assemble in a few minutes. The product has six pieces that can be match to each other and screwed to the bottom in the end.

Believe in us and we will certainly be with you!

GRC BY GLOBALE RC URNAS

GRC BY GLOBALE RC URNAS

GRC è nato con l'idea di creare qualcosa che desse la possibilità di essere dove c'è bisogno quando ce n'è bisogno e soprattutto creare un senso di tributo personale.

Il concetto dietro a questo era di pensare alla semplicità e alla facilità di assemblaggio in poco tempo. Il prodotto è costruito in sei pezzi che si incastrano e la base è fissata con delle viti. Questo prodotto è protetto dalla vernice PT116019 S.

GRC was developed based on a vision to create the possibility to be where it needs to be when it is needed and most of all create a sense of personal tribute.

The concept behind the product was to think on simplicity and in an easy way to assemble in short time. The product has six pieces that match each other and the bottom is fixed with screws. This product is protected by patent PT116019 S
